**Information Seminar:** Following the Annual General Meeting a freehold mineral rights information seminar will be presented by Mr. Keith Wilson, an experienced oil and gas lawyer and director of *FHOA*. Mr. Wilson will speak on the problems encountered in leasing freehold minerals and how freehold owners can more fully protect their property rights. The information available to members of the Association through *FHOA*'s technical database will also be demonstrated.

The seminar will be followed by a question and answer session. Representatives of the Alberta Energy Department, the Office of the Farmers' Advocate and the Alberta Energy and Utilities Board have been invited to attend.

Both the seminar and the annual general meeting are open to the public. Cost to attend the seminar is \$5.00 per individual or couple.
